

Rafiki

SPRING/SUMMER
2026

LE CADRE 9A, CEUSE, FRANCE

FOR THE LOVE OF CLIMBING

Rafiki was born while we were getting pumped on long rock lines, projecting moves on difficult boulders, walking a wobbly slackline, and enjoying evenings spent sitting by the fire with friends. These are the experiences that inspired our first t-shirts and pants and continue to inspire our entire collection today. We are climbers and nothing will ever change that.

#RAFIKICLIMBING

GO SUSTAINABLE

When producing apparel and gear for the sport that is so tightly connected to nature as climbing is, sustainability naturally comes to the process. We design and manufacture every single piece to be as durable as possible and in timeless design. The longer it serves each buyer the better for nature. We work hard to find eco friendly materials that can replace plastic and non-natural fabrics while maintaining the same quality and performance. We are not at the finish line yet, but we push further with every collection. To reduce the amount of used plastics, we also reduce the packaging size, and all Rafiki products are packed into recycled plastic bags.

MATERIAL AND FEATURES LEGEND

GOTS
The strictest certification for textiles made of organic textile fibers.

ORGANIC COTTON
More sustainable and environmentally friendly alternative to conventional cotton, grown without the use of toxic and persistent pesticides.

COTTON
Natural, soft, breathable, and hypoallergenic fabric that is highly absorbent and durable.

MODAL
Fibres made from beech pulp that are certified as biodegradable and compostable and at the same time feel soft against the skin.

LINEN
Natural flax-based textile that dries up quickly, which helps reduce heat retention in very warm conditions.

CLIMBING DENIM
Crafted with durability in mind, it combines the classic look of denim with performance features like surprisingly big stretch and reinforced stitching.

RDS
Independent, global standard for down feathers that places great emphasis on animal welfare.

DUCK DOWN
All-natural fill comprised of goose or duck plumage. The lofty nature of the plumage allows it to trap air between its filaments, which is then heated by the body's warmth.

DUPONT SORONA
Eco-efficient performance insulation fiber that is 37% plant based, using 30% less energy and emitting 50% less greenhouse gas as compared to the production of insulation fiber from non-renewable resources.

RECYCLED POLYAMIDE
Material that has been recycled from waste. The raw material source for recycled polyamide can be old fishing nets and carpets, and also waste from manufacturing industry.

POLYESTER/COTTON
Polyester/cotton, also known as TC fabric, is a blend that brings together two different fibers - polyester and cotton - in a way that balances their qualities.

STRETCHY
Models that provide an especially flexible and comfortable fit, allowing freedom of movement without compromising durability.

QUICK DRY
Quick-dry garments that swiftly wick away moisture, keeping you dry and comfortable during all activities.

LIGHTWEIGHT
Models that are made from light materials and are therefore great for active movement.

THERMOREGULATORY
Linen naturally regulates temperature, keeping you cool in summer and warm in winter.

ANTIBACTERIAL
Linen naturally resists bacteria growth, promoting a fresh and hygienic feel.

WATER REPELENT
DWR treated fabric resists water, causing it to bead and roll off. It keeps you dry without sacrificing breathability.

WIND RESISTANT
Wind-resistant fabric blocks cold gusts, keeping you warm and comfortable in blustery conditions.

RAFIKI WOMEN

ARCO, ITALY

Women's sports bra Rafiki NAGO CTN is made from cotton with only a small amount of elastane. That makes the bra comfortable on the body and also look better. We have prepared it for all women who love active movement and also prefer natural materials. The material used is breathable and overall very lightweight. So it's a great choice for warm days or indoor activities, whether it's climbing and bouldering, yoga, or any other sport you can think of. NAGO gives you maximum support and the bra cups can be easily removed if needed. The bra has attractively designed X-shaped straps at the back. Breathable, stretchy, soft and comfortable. That's our NAGO CTN bra for all you amazing active ladies!

NAGO CTN

Women's sports tank top Rafiki SUESCA CTN is made from cotton with only a small amount of elastane. That makes the tank top comfortable on the body and also look better. We have prepared it for all women who love active movement and also prefer natural materials. The material used is breathable and overall very lightweight. So it's a great choice for warm days or indoor activities, whether it's climbing and bouldering, yoga, or any other sport you can think of. SUESCA provides maximum support and can be worn without a bra, or you can also simply remove the sewn-in bra cups if needed. The tank top has attractively designed X-shaped straps at the back. Breathable, stretchy, soft, and comfortable, that's SUESCA. See you soon on the wall, in yoga practice, or out on the rocks. Hasta luego!

IFSC EUROPEAN CUP GRAZ, AUSTRIA

VITA CTN is the most popular piece of our women's climbing Rafiki team from the functional collection. Its made of cotton with just a little bit of elastane, making the tight-fitting shorts comfortable on the body and better looking too. We have prepared them for all women who love active movement and also prefer natural materials. The material used is breathable and overall very lightweight. So the shorts are a great choice for warm days or indoor activities, be it climbing and bouldering, yoga, or any other sport you can think of. The icing on the cake is the climbing design printed all over the shorts and also the little secret pocket at the waist. Be really "IN" and accessorize your shorts with one of the Rafiki bras or tank tops. Plus, you can fit the whole outfit, including the mage and the leggings, in a medium-sized purse.

KALYMNOS, GREECE

Do you care about the environment and your style? If the answer is yes, then the women's Chulilla T-shirt will make you happy twice. It won't lie heavy either on your body nor on your conscience. The combination of bio cotton and visionary fabric Lenzing Modal® is light and airy. Lenzing Modal is made from beech pulp in nearby Austria. Due to its natural origin, it is certified as compostable and biodegradable both industrially and at home. The manufacturer guarantees that the material can be completely lost in nature again without any residue. By this, we don't want to encourage you to throw your T-shirt under a rock, but we want to give you a more nature-friendly choice. This t-shirt is pleasant both to touch and to look at. And as a nice bonus, you will definitely stand out among other climbers thanks to its colorful asymmetric parts.

The next time you set off for an outdoor bouldering, put on the women's long-sleeved FINALE T-shirt! It's made of a technical material that is light and moisture-wicking. We've chosen the combination of organic cotton plus and Lenzing Modal® material, whose fiber comes from beech wood. Eco-friendly fabric with a very pleasant and natural touch. The long sleeves protect you from abrasions and cold temperatures even when you are climbing in the shade and on boulders under the trees like in Fontainebleau or Ticino woods. Try their bold color combinations, be attractive, and mainly above all: still truly yourself!

A new version of the Rafiki BABSI LT women's singlet, which we have lightened and simplified compared to the original model. You won't find even a hint of elastane in it anymore, but only 100% organic cotton. The BABSI LT is a great choice for all climbers looking for comfort, style, and sustainable fashion. The organic cotton guarantees softness and a comfortable fit to the point that you will hardly feel the singlet on you and will be able to focus all your energy on the climbing itself. Moreover, the simple design and soft pastel colors make it a stylish addition to your climbing outfit.

GORGES DU TARN, FRANCE

The Rafiki AKIYO T-shirt is the lightest, most minimalistic, and thanks to that the cheapest model in the women's collection. With a lower price, however, it does not lose its quality - we used 100% organic cotton in its production. Thanks to its light, breathable, and comfortable material, the AKIYO T-shirt is best suited for everyday wear. It is distinguished by its pastel colors, which make your beauty and femininity stand out. We have replaced the earlier climbing patterns with a simplistic print centered on the front of the T-shirt. Do you recognize the Rafiki logo in a retro way? The AKIYO is not only a stylish accessory, but also a suitable choice for any climbing expedition or visit to the climbing wall and bouldering area. Thanks to the sustainable material, you can also feel good that you have put as little burden on nature as possible by buying it.

ZILLERTAL, AUSTRIA

A new version of the Rafiki MELLO LT women's shirt, which we have lightened and simplified compared to the original model. You won't find even a hint of elastane in it anymore, but only 100% organic cotton. MELLO LT is a great choice for all climbers looking for comfort, style and sustainable fashion. The knit is soft and very comfortable to the touch, so you can be sure you'll feel good in it no matter if you take it to work, the boulder hall, or the crags. The t-shirt is distinctive thanks to the minimalist print on the front and the bold but still lightweight design on the back. Expand your wardrobe and climb with confidence and the knowledge that you've opted for an eco-friendly option.

A great leisure dress with a looser cut that resembles an extended T-shirt, now lighter than before and therefore more comfortable to wear on hot summer days. The contrasting pocket hides a few little things while attracting the attention of those around you. Thanks to its comfortable fit, the Rafiki ROSARIO is suitable for relaxing after climbing, as well as for other leisure activities or for the walks in the town. Plus, like most of our t-shirts, they're made from high quality organic cotton so you can feel good not only that they look good on you, but also that their production was environmentally friendly.

PRAGUE, CZECH REPUBLIC

Trust us, it's not just sandstone climbers who wear shirts for climbing. This flannel shirt will serve you great as a second layer instead of a sweatshirt. For this purpose, it has two side pockets and, as usually shirts do, two chest pockets with a flap. Small gussets are inserted in the armpit areas for better range of motion and maximum freedom of movement. The sleeve cuffs can be set in two positions.

ANDALUSIA, SPAIN

Estrella is a light and breathable sweatshirt made from organic cotton that is easy to climb in. It's one of the crowd's favorite products, thanks to the material that is pleasant to touch and wear. The use of elastane keeps it sufficiently stretchy. It's a good choice for both warm-ups and warming up right after a climb. Wear it when you are going to the rocks, bulders or a yoga lesson. Its contrasting hood and drawstrings make sure you will catch the eyes of passersby.

LA FOIXARDA BARCELONA, SPAIN

We took our unisex Zulu hoodie made from organic cotton and gave it a fresh cut — now it's a women's cropped sweatshirt, built for the crag and the city. Whether you're chalking up for your next route or grabbing coffee post-session, you'll stay comfy and looking sharp. No pockets means nothing's in your way — no bulging phones, no distractions, just clean lines and full freedom of movement. We went with sustainable materials to keep things breathable and light, while making sure your impact on the planet stays as low as your next dyno is high.

LEONIDIO, GREECE

Our DARCY women's thermal jacket is based on a model that has been proven over the years. It stands out with several features that you will undoubtedly appreciate as a climber. The two-way YKK zipper makes the jacket ideal for use when you don't want to freeze on belay. The jacket's outer material is windproof and also has a waterproof finish. The insulation used, in the form of DuPont's Sorona has great thermal properties and leaves minimal ecological footprint. The combination of down and man-made fiber ensures a much lower weight and makes the jacket packable and portable. We placed the feathers on the inside to keep you nice and warm and used synthetics on the outside, which has the effect of better performance in rain and wet environments. For greater freedom of movement of the hands, we have placed stretch wedges in the armpits. The Darcy has two side pockets and one chest pocket, with mesh pockets inside to fit your climbing shoes. And finally, our time-tested classic: a climbing difficulty conversion chart, so you don't have to count on your fingers like in prehistoric times.

No matter what the season is, a down jacket is almost always useful. Our new all-season women's down jacket will become your constant companion and won't let you down even when others want to stay by the fireplace. The certified duck down fill and recycled polyamide outer material with a PFC-free DWR treatment are the perfect protection on a brisk autumn or cool summer night. Plus, the jacket packs down into a compression sack, so it's great as a pillow, too. Two main zippered pockets and a chest pocket provide enough of space for your essentials. A hemmed hood for extra protection from the weather, a reversible YKK main zipper and stretch knit cuffs only add to the versatility of this down jacket. The Project Mhas other obvious Rafiki features like a climbing grades chart or internal pockets for climbing shoes.

MANDALA BOULDERHALLE, GERMANY

These women's lightweight sports shorts are designed especially for modern bouldering disciplines where you need maximum freedom of movement. Whether you're jumping a dyno into the next hold, running over a "parkour" fun line, or tuning up technical balancing. Thanks to the stretchy material and wide waistband, you'll have absolute comfort as well. You can definitely pack them in your backpack on your way to warmer climbing destinations when you want to catch some bronze and get a tan while climbing. Plus, they look great and accentuate your graceful feminine curves. Test it out for yourself, give it a try, and if you still don't believe us, just ask a few of your climbing buddies who will surely agree with us, that these shorts fit you great!

MANDALA BOULDERHALLE, GERMANY

It's not just guys who want wide-legged bouldering shorts. NOIA climbing shorts are for all girls who don't want to buy classic men's models anymore but still prefer a wider and longer "boy fit" cut. This Rafiki piece is therefore dedicated to all enthusiastic climbers and sporty women who are looking for comfort, and convenience, but also a modern and clean design. They are made of a ultra-light, quick-drying material that is also incredibly durable. So they're an obvious choice for hot summer days in the crags, for the crowded climbing gym, or poorly ventilated basement room where you're training hard for your dream climbing projects. Climbers from the Czech national sport climbing team have chosen them as their competition shorts and have been wearing them all season to compete for medals at international competitions. You can be sure that if the professionals are happy with them, they won't restrict your climbing movements either.

KALYMNOS, GREECE

This is a practical climbing skirt with shorts inside for every woman who loves bouldering. Breathable, quick-drying, light and flexible – everything you want for a climbing apparel. The wide waist cuff holds this skirt in place so a climber can do everything she loves with maximum freedom of motion. An interior thigh pocket provides a place for the essentials like keys and a phone. This great-looking climbing skirt should be there in every backpack.

ROCKLANDS, AUSTRIA

The women's 3/4 TARRAGONA trousers will catch your attention at first sight. We've used an ultra-light material which is breathable and quick-drying. Whether you prefer climbing, bouldering or yoga or any other kind of dynamic activity, you'll grow fond of their comfortable fit with multiple functional details like a diamond crotch, shaped knees and legs with elastic cuff in the back to hold them fast above the ankle. And we didn't forget the wide elastic waist that keeps the trousers at place even when you eat more tapas than you should. In three words: multisport capri trousers. So "hola en las rocas, chica!"

Rafiki MISTY are lightweight women's cotton shorts that we designed specifically for climbing in the hot summer months. The combination of materials, cotton, and elastane, combines light weight - only 140 g/m2, flexibility, and comfort. In short, you'll be hard pressed to find lighter cotton shorts. They'll offer you a number of functional and design details, such as contrast bartacks on the front and back pockets, a tiny Rafiki logo and an elasticated waistband. Thanks to their civilian look, you don't have to worry about what you're going to wear after a day in the crag and you can go straight to town for dinner. Experience the transition in the lightness of cotton climbing clothing for yourself and be indulged by the natural material while you focus your attention on conquering vertical challenges.

SIURANA, SPAIN

Rafiki MARGA, the lightweight women's cotton pants that we have specially designed for climbing in the hottest months. The combination of materials, elastane, and cotton, combines light weight - only 140 g/m2, flexibility, and comfort. In short, you'll be hard-pressed to find a lighter cotton pant. In addition to the chosen materials, the climbing articulated knees, rubber waist cuffs, and elasticated waistband guarantee absolute freedom of movement. The cut of the trousers is designed so that the legs taper downwards, so they won't get in the way even in harder step sequences in a slab. With a civilian look, you don't have to worry about what to wear after a day in the crag and can head straight into town for dinner. It doesn't matter if you take them to explore Verdon Canyon, seaside destinations like Finale or Sperlonga, or even to check out La Rambla on your next visit to Siruana, sent by Margo Hayes when she was 19. Trust that in warm climbing destinations, Rafiki MARGA will not let you down!

CEUSE, FRANCE

Women's climbing trousers that are stylish, breathable, and resilient. Their narrowed fit is very comfortable, in part due to the flexible material used. They're made for climbing. Naturally, they include features like a wide and comfortable waist cuff, a diamond crotch, shaped knees and legs with elastic cuffs in the back to hold them fast above the ankle. What more could you wish for out on the rocks? You'll also appreciate the double zig-zag toothbrush loop. And if you're climbing without one, think of the loops as decoration.

SAXONY, GERMANY

Our women's climbing pants SHIVA are the perfect choice for hot summer climbing days. We've made them from a combination of linen, cotton and spandex, so they're both comfortable and breathable. The linen material gives the pants a naturally worn-in design and you can count on them to keep you comfortable even in hot weather. Plus, it's stretchy and dries very quickly. Thanks to the elasticated waistband, SHIVA adapts to every woman's figure. Furthermore, thanks to the two practical back pockets, you can take all your climbing essentials with you. On the pants, you will also find two classic front pockets, pre-shaped knees, and an internal drawstring on the hem of the legs, which ensures that they won't fall over your climbing shoes. Whether you climb boulders or are more drawn to lead climbing, you'll feel comfortable and look simply great on the rock in the summer SHIVA LTs.

MANDALA BOULDERHALLE, GERMANY

The Chain Capri women's climbing trousers have a look that blends in and lets you wear them equally well out to the rock walls and boulders or into the city. They're made from ultra-light denim that's flexible, breathable and quick-drying. The wide waist cuff on these trousers makes them a good fit, and their diamond crotch lets you move freely. With their doubled-contoured shaped knees, you can lean onto a rough rock face problem-free. Their leg cuffs are elastic in the back. There's also a fancy toothbrush loop on the side of the thigh. So, are you ready to go?

TISÁ, CZECH REPUBLIC

Climbing pants Chain look just like any other street jeans, yet are the perfect partner for rock climbing. The ultra-light denim is stretchy, breathable, and dries up quickly. A wider cuff makes sure the trousers fit well. The inset gusset gives you maximum freedom of movement, which climbers will appreciate. The raised, shaped knees can withstand the rougher treatment on the rock. The lower cuff is elasticated at the back to keep the trousers well above the ankle. However, the elastic is only in the back, so from the front the pants look like normal flared jeans. There's also a fancy toothbrush loop on the side of the thigh. So, are you ready to go?

RAFIKI MEN

MARGALEF, SPAIN

Lightweight and breathable mono-chromatic Rafiki ZONE T-shirt is here for all of you. The environmentally sustainable "Lenzing Modal" material is its main advantage. Not only is it incredibly light, breathable, and comfortable on the body, but it is also a material of the future that is as environmentally friendly as possible. Lenzing Modal is made from beech pulp in nearby Austria. Due to its natural origin, it is certified as compostable and biodegradable both industrially and at home. The manufacturer guarantees that the material can be completely lost in nature again without any residue. By this we don't want to encourage you to throw your T-shirt under a rock, but we want to give you a more nature-friendly choice. A piece you'll love for training and also when you go out climbing on the rocks. It's up to you what route you will choose. So choose sustainability in our new ZONE natural t-shirt.

ARCO, ITALY

SLAB LT is a lightweight men's tank top made of 100% organic cotton that will cover your back even on the hottest summer days. The material and cut are designed to give you the least restriction of movement and provide you with perfect flexibility for climbing and all other sports activities. We've brought the SLAB LT back into our collection after repeated requests from our Rafiki ambassadors, and we've made it noticeably better than its previous models. The new material used in the tank top Rafiki SLAB LT is softer and therefore extremely comfortable. The contrasting colour of the chest pocket, the tiny "Rafiki-doll" on the front side near the shoulder, along the large Rafiki climbing print on the back – all of this adds to its attractiveness. If you're looking for climbing gear for your projects on the hottest days, definitely add the Rafiki SLAB LT to your climbing wardrobe selection!

KALYMNOS, GREECE

The Rafiki GRANITE men's T-shirt is the lightest, most minimalistic, and thanks to that the cheapest model in the men's collection. With a lower price, however, it does not lose quality - we used 100% organic cotton in its production. The GRANITE T-shirt is breathable and pleasant to the touch, plus it's very comfortable, so you'll love it for casual days and climbing trips as well. Thanks to the sustainable material, you can also feel good that you have put as little burden on nature as possible by buying it. The original color combinations on the sleeves and the distinctive Rafiki logo on the back make it a shirt for anyone who wants to stand out among climbers. Whether you're having a "rest-day" or pushing your vertical limits, the GRANITE will quickly become your first choice. Throw it on and go fight gravity!

PRAGUE, CZECH REPUBLIC

Men's leisure T-shirt Rafiki GRAB LT. This is a lightened and simplified version of your favorite t-shirt from past collections. A comfortable t-shirt made from 100% organic cotton in a classic fit with a chest pocket and a very soft, elegant design. The low weight and breathable natural material make it a great choice for hot summer days. The Rafiki GRAB LT will simply keep you comfortable all day long, wherever your adventures take you. The GRAB LT gives you a more civilian look that you can grab and go not only to the boulder gym or to the crag but also for a business meeting or an afternoon walk around town. So don't wait for anything and "GRAB IT", right now!

Classic and comfortable, the Rafiki ARCOS men's t-shirt made from 100% organic cotton. The ARCOS T-shirts are the new successors to the previously popular model Slack and come with a wide range of colours to choose from. ARCOS are inspired by climbing patterns and themes. Are you on the way to "send" your project? Climb a difficult roof or overhang? Do you love the "climbing lifestyle" and all that goes with it? Check out the new prints and impress both yourself and your climbing fellas. And not only in ARCO!

Virage is perfect for all climbers who like to add a touch of casual elegance to their outfit. This medium-weight flannel shirt will serve you great as a second layer instead of a sweatshirt. For this purpose, it has two side pockets and, as usually shirts do, two chest pockets with a flap. Small gussets are inserted in the armpit areas for better range of motion and maximum freedom of movement. The sleeve cuffs can be set in two positions.

A lightweight and breathable organic cotton sweatshirt that you'll appreciate especially during your warm-up or when you finish your climbing session and need to get warmer. But you can climb in it too, thanks to the elastane it's stretchy enough. The material is incredibly comfortable to the touch and will ensure that you won't want to take this sweatshirt off. The contrasting hood and drawstrings tell everyone you're part of the Rafiki gang. So whether you're traversing a meter off the ground or halfway up the wall on El Cap, our lightweight cotton sweatshirt will keep you comfortable.

DĚČINSKÝ SNĚŽNÍK, CZECH REPUBLIC

Meet our unisex organic hoodie, ZULU. Made from a blend of organic cotton and polyester, this hoodie is both comfortable and durable. With muted colors and lightweight patterns, it's perfect for both casual wear and for your upcoming climbing trips. This hoodie is perfect for layering and will keep you warm on cold days spent in the crags. Its versatile design makes it a great choice for both men and women. The ZULU has an adjustable hood, kangaroo-style main pocket, ribbed hem, and sleeve cuffs. We've used eco-friendly material to ensure the best possible breathability while giving you peace of mind that you're not putting more strain on nature than necessary with your purchase.

GORGES DU TARN, FRANCE

Our DANTE men's thermal jacket is based on a model that has been proven over the years. It stands out with a number of features that you will undoubtedly appreciate as a climber. The two-way YKK zipper makes the jacket ideal for use when you don't want to freeze on belay. The jacket's outer material is windproof and also has a water-proof finish. The insulation used, in the form of DuPont's Sorona has great thermal properties and leaves a minimal ecological footprint. The combination of down and man-made fibre ensures a much lower weight and makes the jacket packable and portable. We placed the feathers on the inside to keep you nice and warm and used synthetics on the outside, which has the effect of better performance in rain and wet environments. For greater freedom of movement of the hands, we have placed stretch wedges in the armpits. The Dante has two side pockets and one chest pocket, with mesh pockets inside to fit your climbing shoes. And finally, our time-tested classic: a climbing difficulty conversion chart, so you don't have to count on your fingers like in prehistoric times.

MARGALEF, SPAIN

No matter what the season is, a down jacket is almost always useful. Our new all-season men's down jacket will become your constant companion and won't let you down even when others want to stay by the fireplace. The certified duck down fill and recycled polyamide outer material with a PFC-free DWR treatment are the perfect protection on a brisk autumn or cool summer night. Plus, the jacket packs down into a compression sack, so it's great as a pillow, too. Two main zippered pockets and a chest pocket provide enough of space for your essentials. A hemmed hood for extra protection from the weather, a reversible YKK main zipper and stretch knit cuffs only add to the versatility of this down jacket. The Project W has other obvious Rafiki features like a climbing grades chart or internal pockets for climbing shoes.

IFSC EUROPEAN CUP GRAZ, AUSTRIA

The Rafiki Lead II men's climbing shorts are made of ultra-light, quick-drying material that is also incredibly durable. So they're an obvious choice for hot summer days in the crags, crowded climbing gym, or poorly ventilated basement room where you're training hard for your dream climbing projects. Climbers from the Czech national sport climbing team have chosen them as their competition shorts and have been wearing them all season to compete for medals at international competitions. You can be sure that if the professionals are happy with them, they won't restrict your climbing movements either.

KALYMNOS, GREECE

Rafiki Moonstone LT are light and airy 3/4 climbing trousers with the elastic waist which are ideal for those who prefer mid length trousers for climbing. Now with slimmer legs so you can see your feet on sketchy edges, re-designed rear panel adds mobility where it counts. They keep your knees perfectly tucked in and prevent you from scraping on sharp lime or bruising on rough coarse granite. The trousers have a pocket for a cleaning brush, a loop for a chalk bag, and a drawstring waist, as well as at the ends of the ergonomically shaped legs.

MANDALA BOULDERHALLE, GERMANY

Our popular Drive light weight trousers have been a stable piece for several years. That's why we decided to give them a little facelift. One of the inspirations for us were the comments of the Czech national team, who is wearing them. Same material, new fit. Now with slimmer legs so you can see your feet on sketchy edges. and the original back seat panel. The redesigned rear panel adds mobility where it counts, and we tweaked the pocket access too – because when the send turns into a whimper, your tissue should be close at hand.

Cotton, lightweight, and shorter cut. Rafiki MATTO are lightweight men's cotton shorts designed specifically for climbing in the hot summer months. The combination of materials, cotton, and elastane, combines light weight - only 140 g/m2, flexibility, and comfort. In short, you'll be hard-pressed to find lighter cotton shorts. Comfort and flexibility or movement without restrictions are standard for Rafiki clothing. The MATTO will additionally offer you a number of functional and design details, such as a tiny "Rafiki" logo, designer but functional belt loops, or an elastic waistband with a drawstring. Thanks to their civil look, you don't have to worry about what to wear after a day in the crag and you can go straight to town for dinner.

GORGES DU TARN, FRANCE

If you are a climber who prefers to climb in long pants even on warm summer days, the Orco men's climbing pants are the ideal choice. The combination of materials, elastane and cotton, combines light weight - just 140 g/m², flexibility and comfort. In short, you'll be hard pressed to find a lighter cotton pants on the market. In addition to the chosen materials, the climbing articulated knees, rubber waist cuffs and elasticated waistband guarantee absolute freedom of movement. The cut of the trousers is designed so that the legs taper downwards, so they won't get in the way even in harder step sequences in a slab. With a civilian look, you don't have to worry about what to wear after a day in the rocks and can head straight into town for dinner.

Men's climbing shorts, that are a clear choice for all lead climbers or bouldering enthusiasts! The combination of cotton and elastane guarantees flexibility, breathability, comfort, and absolutely no restrictions during demanding climbing sequences. The Megos shorts are based on our tried-and-tested cut, and the elastic drawcord waist ensures your comfort. A pair of shorts you can rely on, and it doesn't matter whether you want to attempt "Perfecto Mundo" or "Fight Club" like Alex Megos, or just want to enjoy a nice relaxing day of climbing in the sun in the crag.

Looking for a universal pair of shorts you can wear anywhere anytime without looking like a stray mountaineer? You've just found them. The men's low-key Crux shorts in restrained colors have a classic fly and can be easily combined with any t-shirt you like wearing to work. If you take a closer look, you'll notice many improvements that every passionate climber will love. They are made of a combination of cotton and elastane. This tougher and durable material with great tensile strength can withstand even rough handling. An added gusset gives you more freedom of movement. The shorts have two spacious pockets in the front, two smaller in the back, one on the thigh, and the sixth one specially designated for a toothbrush. It's cleverly hidden on a side, as a part of a main pocket. How cool is that? You can wear the Crux shorts all day long, no matter if you are going to grab a beer, slacklining in a park, or climb up your favorite rock route.

A tried and tested combination of 97% cotton with just a bit of elastane and 3/4 length of the legs. These are the Rafiki three-quarter Cliffbase trousers. They will please absolutely everyone who likes a shorter style of trousers. They'll be great to use on a spring climbing trip to Arco, Italy, or at the "Cliffbase" climbing base in Hvar, Croatia, which was a big inspiration for us while creating, this piece that is perfectly suitable for all your vertical adventures on the sharp limestone, or any other rock type. You'll have to test them out for yourself on the rock of your choice.

KALYMNOS, GREECE

If you're looking for original pieces that stand out from our colorful collection, you've come to the right place. We bring you the "old school" RUNOUT cotton climbing pants. This piece has one goal and that is to return to the roots of climbing clothing. In order not to deny the five-year-old Result model we took inspiration from, we left the distinctive print on the back pocket unchanged. As much as we like to get inspired from the past, we are moving with the times, and compared to the old model we were inspired by, the Rafiki RUNOUT has undergone a significant upgrade in all the details and technical tweaks, retaining everything we have learned over the years. So, of course, there are climbing articulated knees based on sewn-in gussets, or a more durable and stiffer bent rubber waistband that is tighter and more supportive. The trousers have leg drawstrings on the outside, a hidden small pocket for a brush for cleaning your holds, and deep pockets that you won't just drop something out of. Cotton with a touch of elastane makes the RUNOUTs the obvious choice for a versatile climbing pant without compromise. The icing on the cake is the fact that they are one of the cheapest trouser models in our range.

The men's climbing trousers took the best out of the Megos shorts and belong among Rafiki's top products. They are functional trousers you can wear all day long. The combination of cotton and elastane is firm but stretchy and the trousers are ideal for climbing, with doubled pre-shaped knees enhancing durability. Thanks to the elaborated fit you have absolute freedom of movement. Spacious front pockets can hold all your essentials, a toothbrush pocket is a must-have and you can easily stow your phone into a little thigh-side zip pocket which you can easily access even when sitting in a harness. The trousers have a fly, elastic waist, and belt loops.

Denim shorts with an elastic waistband that will make you feel good on the wall and dazzle everybody at work. No, really, these are shorts of a proven cut that even our best athletes use. We've added functional details like a brush pouch and drawstring waistband and sewed them for you in Rafiki denim. Remember, denim doesn't have to be just pants.

FRANKENJURA, GERMANY

Don't worry, you're right here in the climbing clothes department. Doesn't look like it, does it? These awesome climbing jeans are indistinguishable from classic street pants. They don't look like it, but they'll serve you well on any climbing adventure and are a favorite piece of our ambassadors. The lightweight denim material makes them durable yet breathable, and quick drying. The inset gusset and double-moulded knees promise unrestricted movement. If it weren't for that, our Ambassador Vojta Trojan probably wouldn't have chosen them for his successful climb of Germany's legendary route Action Directe 9a. The elastic at the waist is hidden inside so as not to spoil the civil look, and we've also added belt loops. A smart pocket for a toothbrush is a must. We've prepared two seamed lines on the bottom cuff of the trousers, where you can cut and therefore shorten the trousers without fear of the fabric fraying.

In Torre II men's climbing jeans you will handle any challenge. Whether it's bouldering at the edge your skill, balancing on a miniature crimp, or needing to put your knee under your chin, the Torre II won't let you down. The higher weight makes them the perfect choice for the chilly climbing condition. Rafiki elastic waist ensures a perfect fit, so you will feel nothing under the harness and nothing will distract you from the next step under the quickdraw.

SAXONY, GERMANY

Versatile men's climbing jeans Rocca. Besides front and back pockets, you'll find a zippered thigh pocket compatible with a harness. The durable canvas also protects more than just your knees when you're projecting new route. You can use the Rocca for all your climbing activities, but when you decide to go to straight for the diner just after packing your racky you won't have to feel guilty you look like a climbing bum. You can easily chalk off your pants, slip your toothbrush into the pouch and blend in with the crowd.

RAFIKI ACCESSORIES

Looking for a reliable and rugged crash pad that will protect you from hard falls? If so, look no further, our classic two-piece GRADE crash pad is a must-have for every bouldering enthusiast. Two layers of high-quality foam will take care of cushioning your falls. To be sure that we chose the right hardness of the foam we thoroughly tested it in cooperation with our ambassadors and bouldering hall builders. The crash pad cover is made of durable materials and can withstand even the roughest treatment. The rubber-coated material on the outside is also non-slip and easy to wash if dirty. Comfortable (one-piece) shoulder straps and a simple hip strap allow you to easily carry the crash pad to all your unfinished projects. You can detach both of these straps if needed. There are durable metal buckles and handles for handling on the ground or carrying. A mat for cleaning the climbing shoes can be found in a separate hidden pocket on the top. You can trust the quality - the crash pad is made and filled in Europe and we have paid attention to every little detail. Don't settle for less - upgrade your gear with this Rafiki crash pad.

salsa II
10047829RFX

The model is 184 cm tall.

The GRIT climbing backpack with a capacity of 40 litres is ideal for carrying your climbing gear. Its sturdy construction, durable metal buckles and TPU finish give it durability. A full-length YKK zipper down the middle of the back then allows for quick and easy access to everything you stow in it. With this pack, there's no more chaotic rummaging and situations where "the thing" you need is, as bad luck dictates, at the bottom of the pack are a thing of the past. Thanks to the padded and reinforced shoulder straps, chest strap and reinforced hip strap, you can be sure that even when you stuff the pack, it will carry comfortably. Plus, you'll find a handy little pocket on the waist strap, for example for your keys, and a loop for clipping on your climbing shoes. With two side pockets, carabiner loops, drawstring straps for attaching a rope, or elastic side straps for a clip stick, the GRIT is really practical. Two large loops at the top and bottom of the pack allow you to move the open pack under the rock without having to close the pack first. Every climber knows that if you want to taste climbing on hard "grit stone", you will have to visit famous Peak District in Great Britain...well, it's only a matter of time before our GRIT backpack becomes just as famous.

Multi-purpose durable transport bag that you can carry in your hand thanks to the sturdy handles or on your back thanks to the reinforced straps. The straps are also removable with duralumin buckles or you can hide them in the pocket on the lid of the main compartment. The Rafiki duffel offers 3 more pockets with YKK zipper. On the side with a water-repellent zipper, a mesh one all along the inside of the lid, or on the front pocket where you can simply roll the bag into a small pancake and use it as a pad for sitting on the cold ground, for example. Climbers will also love the daisy chain sewn around the side of the bag.

You don't want your rope rolling in wet sand, dirty mud, or even rain and water under a rock anymore? We know you don't! That's why we have prepared our new Rafiki ROPER for you. A practical and durable rope bag that protects the rope inside from the elements. Inside the rope bag, you will find a PU-coated tarpaulin that will protect your rope from getting wet and dirty from the ground. Of course, there are also colored loops for tying the ends of the rope, so you won't have to dig through its whole length just to find the right end to tie on. The ROPER rope bag also features two compression straps and one adjustable shoulder strap. With a 25-litre capacity, it can comfortably hold up to 80 metres of rope and you can throw in climbing shoes, a chalk bag, or other essentials.

Our new Rafiki SCRUB backpack with a capacity of 26 liters will serve you well for everyday use. Its design was inspired by "big-wall" haulers aka "hogs", featuring a large opening on the top, a full-height vertical daisy chain strap, reinforced hems and edges, and a flat, sturdy bottom for better stability when you put it on the ground. A large side zippered opening gives you easy access to all the stuff in the bottom of the pack too. An internal back pocket protects your laptop or tablet, while a small zippered side pocket is perfect for storing your phone or wallet. Whether you're commuting to work, running errands, or heading to the climbing wall, the SCRUB backpack will be your ideal partner. There are two color designs to choose from, so just pick the one that suits your climbing and adventurous nature.

Introducing Bishop! This is not a scruffy climbing chalk bag, but a proper "boulder bag" with a roll-up velcro closure complete with a metal buckle! Bishop will serve you long and well, even if you don't treat it like a fragile treasure. We've used a pleasant "micro-fleece" for the inside of the bag and on the side, you'll find a handy zippered pocket, which you can also use as a key holder or to stash all your valuables and bouldering essentials like tape, sandpaper, scissors or band-aids if worst comes to worst! You can then tuck up to three different-sized toothbrushes into the outer pockets. So take the Rafiki Bishop to Bishop, California, or just anywhere else for some serious bouldering!

Get a grip with our high-quality magnesium products for climbing! Our magnesium is perfect for drying your skin and improving your grip during your climb. It's suitable for use on climbing walls, rocks, and even for gymnastics and fitness activities. We pride ourselves on offering the highest quality products, tested by the state health institute, and all made in the EU. Our range of products includes crushed magnesium, liquid magnesium, and magnesium balls, so you can choose the format that best suits your needs. Crushed magnesium is perfect for refilling your chalk bag or bucket, while liquid magnesium is ideal for quick and easy application. The magnesium balls are a convenient option for those who want to avoid the mess of powdered magnesium.

RAFIKI SHOES

We have added the Rafiki MONTE M sturdy street approach shoes to the collection for climbers who are looking for shoes that will serve them well as approach shoes for shorter and easier climbing missions. We've designed them to combine durability and comfort and equipped them with a sticky rubber outsole that provides a great grip on any surface. The premium suede leather upper will offer good weather resistance, while the protective rubber toe and heel cap will protect your feet on tougher terrain. The lace-to-toe design provides a precision fit and sure feel even on the most unstable terrain. The Monte also includes webbing loops for clipping or stowing the shoes when the trail ends and the climbing begins. Whether you're an experienced climber or just a climbing newbie, they will quickly become your favorite all-purpose shoe. With its premium quality and unbeatable design, the Rafiki MONTE M is sure to be a valuable addition to your shoe rack. So take them with you to the crags under your unfinished project!

Rafiki MASSI M street shoes are designed for all climbers who need comfortable and durable shoes for everyday use. The sticky rubber outsole provides excellent grip, while the premium suede leather upper ensures weather resistance and constant comfort. Low rubber toe protection and the toe shape of the Massi shoes are inspired by climbing shoe construction and allow for precise toe placement if you decide to challenge some of that urban bouldering on your way to work. The specially designed tongue, which is sewn tightly not only at the end but all along one side of the shoe, provides a great degree of comfort and also requires no additional adjustment. The strap loops make it easy to clip on and store the boots, making them a versatile choice for any climber. Whether you're heading to the local climbing wall or just running daily errands, the Rafiki MASSI M definitely won't let you down even in unstable terrain. Their combination of style, durability, and comfort make them the perfect addition to your shoe closet. So don't hesitate to try them out on your own feet!

Designed for durability and comfort the Rafiki ACCESS M hybrid street approach shoes for climbers feature a sticky rubber sole that provides great grip on any surface. The premium suede leather upper offers both weather resistance and comfort, while the low rubber toe cap will protect your toe in tougher terrain. The highlight feature of the shoe is the collapsible heel, which allows you to wear the shoes just like you would have your casual slippers, without having to worry about ruining them, which is practical for both climbing and bouldering. The special design of the tongue, fixed on one side ensures a comfortable fit that doesn't require adjusting, and the webbing loop allows for easy clipping or stowing. These shoes are perfect for everyday use and won't disappoint in unstable terrain, making them a versatile addition to any climber's shoe collection. Whether you're headed to the local gym, crag or just exploring the city, the Rafiki ACCESS M street approach shoes will keep you comfortable and stylish all day long.

We have added the Rafiki MONTE W sturdy street approach shoes to the collection for climbers who are looking for shoes that will serve them well as approach shoes for shorter and easier climbing missions. We've designed them to combine durability and comfort and equipped them with a sticky rubber outsole that provides a great grip on any surface. The premium suede leather upper will offer good weather resistance, while the protective rubber toe and heel cap will protect your feet on tougher terrain. The lace-to-toe design provides a precision fit and sure feel even on the most unstable terrain. The Monte also includes webbing loops for clipping or stowing the shoes when the trail ends and the climbing begins. Whether you're an experienced climber or just a climbing newbie, they will quickly become your favorite all-purpose shoe. With its premium quality and unbeatable design, the Rafiki MONTE W is sure to be a valuable addition to your shoe rack. So take them with you to the crags under your unfinished project!

RAFIKI TEAM

Our ambassadors include experienced climbers as well as interesting personalities and promising young aces. Thanks to a long term cooperation with them and with the climbing community, we have a chance to get great insights, ideas for new products and most importantly valuable feedback for each of our new collections.

#RAFIKICLIMBING

The most prominent members of the team are:

Vojta Trojan, a tireless rock climber with many 9a under his belt. **Štěpán Stráník**, who is constantly trying and inventing new difficult projects in the Moravian Karst.

Edita Vopatová, a leading Czech rock climber.

Rob Denayer one of the best Belgian boulderers,

Angelo Bonechi, the pioneer of hard bouldering in Sardinia,

Klemen Bečan a climbing legend from Slovenia or

Spanish 8c climber **Núria Díaz**

and many other excellent climbers.

#RAFIKITEAM

RAFIKI

SUPPORTS CZECH NATIONAL CLIMBING TEAM

We are proud supporters of Czech National Climbing team from the young talents to the famous names in the adult categories. They compete in Rafiki apparel and give us valuable feedback and also confirmation that the clothes really work even on the highest level.

SMÍCHOFF

HOW TO MEASURE

MEN

CHEST / Place the tape measure under the arms and around the fullest part of your chest with arms raised slightly.
WAIST / Measure all the way around your body, level with your belly button. Make sure it's not too tight and that it's straight, even at the back. Don't hold your breath while measuring.
HIPS / Put your feet together. Locate the correct area of your hips and measure the widest point around your buttocks. Hold the start of the tape measure on one hip, wrap it around your buttocks and around your other hip and then back to where you started.
INSEAM / Grab your favorite pair of pants. Measure the inseam starting at the crotch seam to the bottom of the pant leg.

CHEST

WAIST

HIPS

INSEAM

SLIM
Fits close to the body and form fitting.

STRAIGHT
Straight cut through the body.

REGULAR
Traditional cut and fits looser around the body.

RELAXED
Roomy and comfortable. Drapes loosely on the body.

WOMEN

The measurements are in **centimetres**.

The measurements are only indicative, not dimensions of the garment (except for inseam, which is garment measurement)
We recommend to try out our clothespersonally.

Foot length / Stand flat-footed with your heel against a wall. Use a ruler or tape measure from the back of your heel to the tip of your longest toe. Expect that a shoe with an inner size that exactly matches the length of your foot will not be comfortable. You should add 7-12 mm to the length of your foot (depending on how tight you want the shoe to fit) and then choose the right size based on the resulting length.

Foot width / Measure the flat width across the ball of your foot (the widest point) by stepping on the ruler or tape measure.
