OUT OF LOVE FOR THE MOUNTAINS, MILLET FORMS A FAMILY WITH ITS COMMUNITIES, GUIDING THEM TOWARD UPLIFTING ADVENTURES AND TAKING ACTION TO PRESERVE THIS SPACE OF FREEDOM.

Since 1921, the year the company was founded in Annecy by Hermance and Marc MILLET, the eponymous brand has consistently been a source of elevation and innovation for mountain enthusiasts, firmly believing that the mountains bring happiness. Driven by this Purpose, we envision the future every day, adapt to change, and guide everyone to rise in the mountains.

From the historic 1950 ascent of Annapurna by Louis Lachenal and Maurice Herzog, to Reinhold Messner's first oxygen-free ascent of Everest in 1979, Christophe Profit's Alpine Trilogy in 1987, or more recently, the first winter ascent of the Rolling Stones route on the Grandes Jorasses, and the ascent of Hungchi by Charles Dubouloz and Symon Welfringer—MILLET has always bridged the connection between a mountain, a rope team, and the gear that makes it all possible.

We continuously adapt to a rapidly changing environment, striving for neutrality in our impact.

First, the evolution of our mountains: melting permafrost, retreating glaciers, and declining snowfall are pushing us to rethink and reinvent our products.

Next, the evolution of mountain practices: low-carbon approaches on foot, ski touring, or by bike to reach the base of routes; increasingly fast ascents using minimalist "fast & light" styles; paragliding or skiing down ever steeper slopes.

And finally, the evolution of mountain enthusiasts themselves: to make them happy through the freedom the mountains provide.

In this spirit, Chamonix—a place that embodies our deep connection to the mountains—remains our preferred laboratory and historical home base.

MILLET supports all mountain adventurers in this pursuit of the unknown, transforming emptiness into fulfillment.

PAR AMOUR DE LA MONTAGNE, MILLET FAIT FAMILLE AVEC SES COMMUNAUTÉS EN LES GUIDANT VERS DES AVENTURES QUI LES ÉLÈVENT, ET AGIT POUR PRÉSERVER CET ESPACE DE LIBERTÉ.

Depuis 1921, année de création de l'entreprise à Annecy par Hermance et Marc MILLET, la marque éponyme a toujours été une source d'élévation et d'innovation pour les passionnés de Montagne, persuadée que la Montagne rend heureux. Chaque jour, animés par cette Raison d'Être, nous imaginons le futur, nous nous adaptons et guidons chacune et chacun à s'élever en montagne.

À l'image de l'ascension de l'Annapurna en 1950 par Louis Lachenal et Maurice Herzog, de la première ascension de l'Everest sans oxygène par Reinhold Messner en 1979, de la Trilogie Alpine de Christophe Profit en 1987, ou récemment de la première hivernale de la voie Rolling Stones aux Grandes Jorasses et de l'ascension du Hungchi par Charles Dubouloz et Symon Welfringer. MILLET fait toujours le lien entre une montagne, une cordée et des produits adaptés.

Nous nous adaptons de façon permanente à un environnement en (trop) rapide évolution, en tendant à la neutralité de notre impact. Évolution de nos montagnes, tout d'abord : la fonte du permafrost, le recul des glaciers et le manque de chutes de neige nous poussent à adapter nos produits et à en inventer de nouveaux.

Évolution des pratiques : des approches bas carbone à pied, en ski de randonnée ou à vélo pour accéder aux bas des voies ; des ascensions de plus en plus rapides, en style minimaliste « fast & light » ; des descentes en parapente ou en ski dans des pentes de plus en plus raides. Évolution des pratiquants enfin : afin de les rendre heureux grâce à la Montagne et sa liberté.

A ce titre, Chamonix, territoire qui se fait l'écho de notre lien à la montagne, reste notre laboratoire privilégié et notre ancrage historique.

MILLET accompagne tous les pratiquants de montagne dans cette quête d'inconnu, qui transforme le vide en plénitude.

SEASONAL STORIES

HISTOIRES DE SAISON

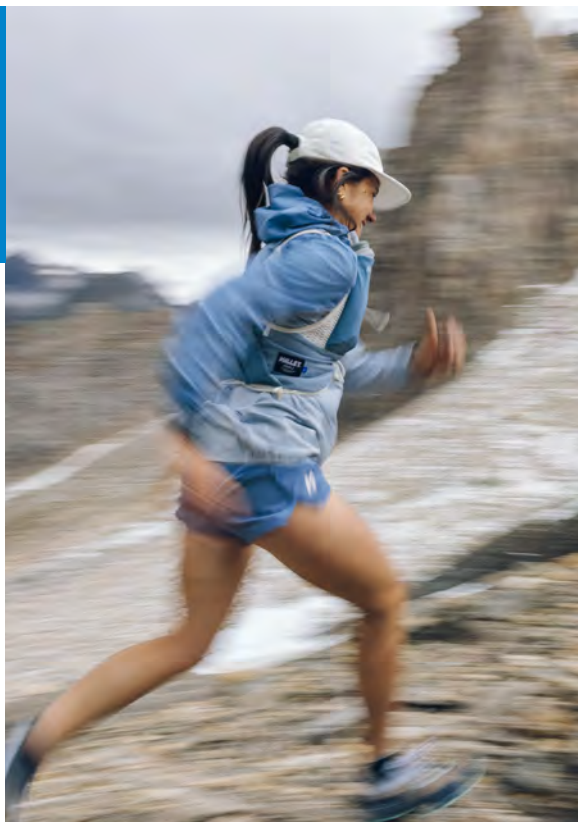

BACKPACK HISTORY

THE MILLET COMPANY WAS FOUNDED IN 1921 WITH THE PRODUCTION OF CANVAS BAGS, BEFORE SPECIALIZING IN MOUNTAINEERING BACKPACKS. It collaborated with icons such as L. Lachenal, who contributed to the Annapurna backpack, worn during the ascent of this summit in 1950. Since then, our history has been marked by **innovations and patented designs** in the world of backpacks. A pioneer in the use of nylon, Millet launched the famous **red Sherpa 50**, worn by R. Messner during his oxygen-free ascent of Everest in 1978. Nearly 100 years later, **innovation** remains at the heart of the brand, celebrated in the mountains with the **Ubic** and the **Trilogy Sky**. For daily life, suspended between two summits, Millet has designed the **Chamonix** backpack. Thanks to their unique expertise, Millet has established itself as **the world reference in backpacks**.

LA MAISON MILLET VOIT LE JOUR EN 1921 AVEC LA FABRICATION DE SACS EN TOILE, AVANT DE SE SPÉCIALISER DANS LES SACS D'ALPINISME. Elle collabore avec des icônes, comme L. Lachenal, qui contribue au sac Annapurna, porté lors de l'ascension de ce sommet en 1950. Depuis, notre histoire est jalonnée **d'innovations et de brevets déposés** dans l'univers du sac. Pionnière dans l'utilisation du nylon, Millet lance le célèbre **Sherpa 50 rouge**, porté par R. Messner lors de son Everest sans oxygène en 1978. Près de 100 ans plus tard, **l'innovation** reste au cœur de la marque, célébrée en montagne avec l'**Ubic** ou le **Trilogy Sky**. Pour la vie quotidienne, suspendue entre deux sommets, Millet conçoit le sac **Chamonix**. Forte de ce savoir-faire unique, Millet s'impose comme **la référence mondiale du sac à dos**.

TRAIL

INTENSE SERIES

TESTED BY OUR TEAM OF ATHLETES, THE INTENSE COLLECTION MERGES PERFORMANCE, LIGHTNESS, AND COMFORT. Two ranges for the same ambition: **Intense Pro**, ultra-light and technical products for professionals; and **Intense**, combining ergonomics and reliability for all enthusiasts. No matter the speed, no matter the distance: run at your own pace, following your breath. That **breath of freedom** that, like the wind crossing the valleys, sometimes finds its way into our stride, guiding us to the summit.

Intense: Wherever your wind blows.

TESTÉE PAR NOTRE TEAM D'ATHLÈTES, LA COLLECTION INTENSE FUSIONNE PERFORMANCE, LÉGÈRETÉ ET CONFORT.

Deux gammes pour une même ambition : **Intense Pro**, des produits ultra-légers et techniques pour les pros ; et **Intense**, alliant ergonomie et fiabilité pour tous les passionnés. Peu importe la vitesse, peu importe la distance : courez à votre rythme en suivant votre souffle. Ce **souffle de liberté** qui, comme le vent traversant les vallées, s'invite parfois dans nos foulées, jusqu'à nous guider au sommet.

Intense : là où le vent vous porte.

TREKKING/HIKING

LIGHT HIKING

LIGHT HIKING IS A STATE OF MIND: WALKING LIGHT AND SHEDDING THE SUPERFLUOUS. For a trek with an overnight stay under a tarp or a long-distance hike on the Pacific Crest Trail: the more you carry, the slower you go. Every gram less is a step closer to freedom. Between **innovation and minimalism**, Millet presents its Light Hiking collection: technical, versatile, ultra-light clothing and equipment. In this world, **the Parmelan backpack** is the icon of adventure, carrying with it the promise of a nomadic journey. Lighten your gear to lighten your spirit. And make room for **the Unknown**.

LE **LIGHT HIKING** EST UN ÉTAT D'ESPRIT : MARCHER LÉGER ET SE DÉLESTER DU SUPERFLU. Pour une randonnée avec nuit sous tarp ou un voyage à pied sur le *Pacific Crest Trail* : plus on porte, moins on avance. Chaque gramme en moins est un pas de plus vers la liberté. Entre **innovation et minimalisme**, Millet présente sa collection Light Hiking : des vêtements et équipement techniques, polyvalents et ultra-légers. Dans cet univers, **le sac Parmelan** est l'icône de l'aventure, qui porte en lui des promesses nomades. Alléger l'équipement pour alléger l'esprit. Et faire de la place pour l'**Inconnu**.
