MILLET®

Fall Winter 2025.26

Since 1921, when Hermance and Marc Millet founded the company in Annecy, the name MILLET has been a constant source of inspiration and innovation for mountain enthusiasts. Day after day, we are looking towards the future and continuing to share our passion to ensure that everyone can realize their dreams in the mountains.

As with the 1950 ascent of the Annapurna by Louis Lachenal and Maurice Herzog, Reinhold Messner's first ascent of Everest without oxygen in 1979, Christophe Profit's Alpine Trilogy in 1987, and more recently Charles Dubouloz's first winter ascent of the Rolling Stones route in the Grandes Jorasses and "le cavalier sans tête" ascent, an aesthetic line culminating at 7029 m in the Hungchi by Charles Dubouloz and Symon Welfringer. MILLET has been the link between a mountain, a rope party, and specialized products.

We are constantly adapting to a (too) rapidly changing environment, striving for a neutral impact. With the transformation of our mountains, including the melting of the permafrost, retreating glaciers, and lack of snowfall, we are forced to adapt our practices and products, and invent new ones.

As a result, methods are evolving: Low-carbon approaches on foot, ski touring or by bike to reach the foot of the routes; increasingly fast ascents, in a minimalist "fast & light" style; descents by paragliding or skiing on increasingly steep slopes. In this respect, Chamonix, an area that echoes our connection to the mountains, remains our privileged laboratory and our historical anchorage.

MILLET accompanies all mountaineers in this quest for the unknown, which transforms voids into a state of fulfillment.

Depuis 1921, année de création de l'entreprise à Annecy par Hermance et Marc MILLET, la marque éponyme a toujours été une source d'émotion et d'innovation pour les passionnés de Montagne. Nous imaginons jour après jour le futur, et partageons constamment notre passion pour permettre à chacun de vivre des rêves en montagne.

À l'image de l'ascension de l'Annapurna en 1950 par Louis Lachenal et Maurice Herzog, de la première ascension de l'Everest sans oxygène par Reinhold Messner en 1979, de la Trilogie Alpine de Christophe Profit en 1987, ou récemment de la première hivernale de la voie Rolling Stones aux Grandes Jorasses et l'ascension du «Cavalier sans tête», ligne esthétique culminant à 7029 m dans l'Hungchi par Charles Dubouloz et Symon Welfringer. MILLET fait toujours le lien entre une montagne, une cordée et des produits adaptés.

Nous nous adaptons de façon permanente à un environnement en (trop) rapide évolution, en tendant à la neutralité de notre impact. Évolution de nos montagnes, tout d'abord : la fonte du permafrost, le recul des glaciers et le manque de chutes de neige nous poussent à adapter nos pratiques et nos produits et à en inventer de nouveaux.

Évolution des pratiques, en conséquence : des approches bas carbone à pied, en ski de randonnée ou à vélo pour accéder aux bas des voies ; des ascensions de plus en plus rapides, en style minimaliste « fast & light » ; des descentes en parapente ou en ski dans des pentes de plus en plus raides.

A ce titre, Chamonix, territoire qui se fait l'écho de notre lien à la montagne, reste notre laboratoire privilégié et notre ancrage historique.

MILLET accompagne tous les pratiquants de montagne dans cette quête d'inconnu, qui transforme le vide en plénitude.

KNOWLEDGE FOR THE UNKNOWN

Since the dawn of mankind, nature of Men has led them to uncertain places, looking for what they had never seen, braving the uncharted mountains to discover themselves.

For more than a century, MILLET has accompanied explorers through extreme and ever-changing environments. Enabling men and women to act as they please by lightening their movements and minds through adversity. Free not to fear the unexpected.

And still today, MILLET behaves as a pioneer, constantly gathering mountain experiences to design evolving gears and pass on timeless knowledge, so that in an unpredictable tomorrow, others can in turn rise alongside forces stronger than them, allowing them to reach their unknown.

Depuis toujours, les Hommes ont exploré les montagnes incertaines à la recherche d'eux-mêmes.

Et pendant plus d'un siècle, MILLET les a accompagnés dans ce monde imprévisible, parfois extrême, toujours changeant, en allégeant leurs mouvements et leur esprit, pour qu'ils puissent évoluer sereinement et n'écouter que leur volonté.

Aujourd'hui encore, MILLET crée des équipements en constante évolution en puisant son inspiration dans l'expérience de la montagne. Une transmission de connaissances, pour que demain, une nouvelle génération puisse s'épanouir dans des instants de vie pure, de sincérité, de partage, et s'élève à son tour, libre d'explorer son inconnu.

ASSORTMENTS STRATEGY

EACH MILLET PRODUCT IS IDENTIFIED AS CORE, EXTENSION OR BASIC.

CHACQUE PRODUIT MILLET EST IDENTIFIÉ COMME CORE, EXTENSION OU BASIC.

CORE

EXTENSION

BASIC

[en]

This product assortment strategy meets the objective of addressing the right product, to the right consumer, in the right distribution channel.

CORE PRODUCTS answer to main needs of MILLET consumers.

EXTENSION PRODUCTS meet a more specific need and complete the CORE offer.

BASIC PRODUCTS are the ideal answer to versatility needs.

A categorization of the range supported by flagship silhouettes, for an attractive in-store presentation.

[fr]

Cette stratégie d'assortiment produits répond à l'objectif d'adresser le bon produit, au bon consommateur, dans le bon canal de distribution.

LES PRODUITS CORE correspondent aux principaux besoins d'usage des consommateurs MILLET.

LES PRODUITS EXTENSION répondent à un besoin plus spécifique et complètent l'offre CORE.

LES PRODUITS BASIC offrent une réponse idéale au besoin de polyvalence.

Une catégorisation de l'offre soutenue par des silhouettes phares, favorisant une mise en avant attractive en magasin.

FOR THE UNKNOWN

TRILOGY JORASSES

[en]

The **Grandes Jorasses**. A fortress of ice, snow, and rock that towers majestically above Chamonix. A **sacred place**, a mountain that inspires as much awe as it does fear.

Trilogy **Jorasses** follows in this lineage. **Products for excellence**, designed with **our athletes**, for pure, lightweight, fast, uncompromising mountaineering.

From the conception of the idea to the final products, **Charles Dubouloz** and **Symon Welfringer** collaborated with our teams. Right up to the ultimate test: the ascent of **Cavalier sans tête**, an aesthetic line peaking at 7,029m on the Hungchi. Charles and Symon experienced intense climbing, extreme adversity, and radical commitment; all of which enriched these products.

This **cutting-edge collection**, **honoured with two ISPO AWARDS**, features innovative construction and is offered as a **layer system**. And that **iconic colour**, the blue of the Millet down jacket worn by Messner in 1978.

Trilogy Jorasses, to face whatever awaits up top:
THE UNKNOWN.

TRILOGY

CHARLES DUBOULOZ
HUNGCHI, NEPAL © MATHURIN VAUTHIER

[fr]

Les **Grandes Jorasses**. Une forteresse de glace, de neige et de roche qui se dresse au-dessus de Chamonix d'un air majestueux. Un **lieu sacré**, une montagne qui fait rêver autant qu'elle fait peur.

Trilogy Jorasses s'inscrit dans cette lignée. Des **produits d'excellence**, conçus avec **nos athlètes**, pour un alpinisme pur, léger, rapide, sans compromis.

De la genèse du concept aux produits finaux, **Charles Dubouloz** et **Symon Welfringer** ont collaboré avec nos équipes. Jusqu'au test ultime : l'ascension du «**Cavalier sans tête**», ligne esthétique qui culmine à 7029 m sur l'Hungchi. Charles et Symon y ont trouvé une escalade intense, une adversité extrême, un engagement radical ; autant d'expériences qui ont **enrichi** ces produits.

Cette **collection de pointe**, **récompensée par deux ISPO AWARDS**, intègre des constructions innovantes et se décline en un **système de superposition des couches**. Et cette **couleur iconique**, le bleu de la doudoune Millet que Messner portait en 1978.

Trilogy Jorasses, pour faire face à ce qui se joue là-haut :
L'INCONNU.

JORASSES PRODUCTS

TRILOGY JORASSES GTX PRO MEN

The new PFAS-free GORE-TEX PRO ePE membrane lowers the environmental impact of this high-performance waterproof jacket. Lightweight and minimalist, it is designed to face the elements with confidence. Produced in the Millet factories, this highly functional jacket is built to withstand the rigours of climbing in the most technical summits.

Avec sa nouvelle membrane en GORE-TEX PRO ePE sans PFAS, cette veste imperméable hautement performante est plus respectueuse de l'environnement. Légère et minimaliste, elle permet d'affronter les intempéries sereinement. Fabriquée dans les usines Millet, elle répond à l'exigence et aux fonctionnalités nécessaires aux ascensions des sommets les plus techniques.

TRILOGY JORASSES DYNEEMA PANT MEN

An innovation on the mountaineering market, these new 3-layer Dyneema® pants are intended for climbing the snow-covered vertical faces. Offering superior waterproofing and tear resistance, they remain flexible and lightweight. 2-way, ¾ side zips make them easy to put on and add extra ventilation. Visionary and sustainable, these pants are designed for the toughest conditions.

Innovant sur le marché de l'alpinisme, ce nouveau pantalon en Dyneema® 3 couches est conçu pour grimper les faces verticales enneigées. Il assure une imperméabilité et une résistance à la déchirure optimales avec souplesse et légèreté. Hyperfonctionnels, des zips latéraux ¾ à double-curseur facilitent l'enfilage et la ventilation. Un pantalon novateur et durable pour des performances extrêmes.

TRILOGY JORASSES 20+5

This durable, fully modular mountaineering pack adapts quickly and easily when you want to stay 'fast and light'. It can be used in its minimalist, ultra-light 20-litre form with no accessories or rigid frame, or with its zippered 5-litre extension kit for extra volume and functionality, adding pockets and gear loops. There is a quick-release clasp with a compression strap that doubles as a rope holder. Depending on the configuration, its weight varies from 395 g to 710 g.

Très résistant, ce sac d'alpinisme totalement modulable s'adapte à votre activité dans un esprit « fast and light ». Dans sa forme minimaliste et ultralégère de 20 l, sans accessoirisation superflue, ou avec son kit d'extension zippable de 5 l permettant d'ajouter volume et fonctionnalités (poches, porte-matériels). Il possède une fermeture rapide par sangle de compression. Selon la configuration choisie, son poids varie de 395 g à 710 g.

TRILOGY JORASSES 4S GTX

Designed with the Compagnie des Guides de Chamonix for optimum performance in extreme conditions, this 4-season mountaineering boot offers thermal protection adapted to each foot zone. A double BOA system allows precise tightening of the front and top of the boot. The external gaiter with protective zip adjusts perfectly to prevent snow intrusion. A top-of-the-range ergonomic boot for year-round performance.

Conçue avec la Compagnie des Guides de Chamonix pour une performance optimale en conditions extrêmes, cette chaussure d'alpinisme 4 saisons offre une protection thermique adaptée au pied. Un double système BOA permet de serrer avec précision l'avant et le haut de la chaussure. La guêtre externe avec zip de protection s'ajuste parfaitement pour éviter toute intrusion de neige. Une chaussure ergonomique haut de gamme pour performer toute l'année.

FOR PERFORMANCE

PIERRA MENT PRO

[en]

10,000 metres of vertical gain, 15 summits, vertiginous descents: the legendary **Pierra Menta** is one of the toughest ski-mountaineering competitions. **Pierra Ment Pro** embodies the spirit of this race with **ultra-functional and innovative products, designed with our athletes.**

A high-altitude sport, skimo combines the endurance of ski touring with the technicality of mountaineering over unforgiving terrains. *"You need very strong motivation to do ski mountaineering. It's intense, physically and mentally. You have to push beyond what you think are your limits."* **Millet athlete**, born with bindings on her feet and poles in her hands, **Emily Harrop** is one of the leading figures on the global skimo scene.

After taking the top of the podium at the Pierra Menta, winning three French championship titles, and a Crystal Globe, what does Emily dream of next? She answers without hesitation: *"a medal at the Winter Olympics!"* Millet supports her for the Milano-Cortina 2026 Olympics, where skimo will make its debut for the first time in history.

PIERRA MENT PRO: FOR PERFORMANCE.

[fr]

10 000 m de D+, 15 sommets, des descentes vertigineuses : la mythique **Pierra Menta** est l'une des compétitions les plus difficiles de ski-alpinisme. **Pierra Ment Pro** porte l'esprit de cette course avec des **produits ultra-fonctionnels et innovants, conçus avec nos athlètes.**

Sport de haute montagne, le skimo combine l'endurance du ski de randonnée à la technicité de l'alpinisme, sur des terrains intransigeants. *«Il faut une motivation très solide pour faire du ski-alpi. C'est intense, physiquement, mentalement. Il faut aller au-delà de ce qu'on pense être nos limites».* **Athlète Millet**, née avec des fixations aux pieds et des bâtons à la main, **Emily Harrop** est l'une des figures majeures du skimo de la scène mondiale.

Après une place tout en haut du podium sur la Pierra Menta, un triple titre de championne de France et un Globe de Cristal, à quoi peut bien rêver Emily ? Elle répond sans détour : *«une médaille aux JO d'hiver !»*. Millet la soutient pour les JO Milano-Cortina 2026, où le skimo fera son entrée pour la première fois de son histoire.

PIERRA MENT PRO : POUR LA PERFORMANCE.

PIERRA MENT PRO

PRODUCTS

PIERRA MENT PRO TOP WOMEN

Made in our factories and developed with Emily Harrop, this highly functional jacket is part of a two-piece ski mountaineering suit designed for competitions. The 4-way stretch fabric ensures superior freedom of movement. It provides warmth, wind protection and durability, especially in the Dyneema®-reinforced shoulders.

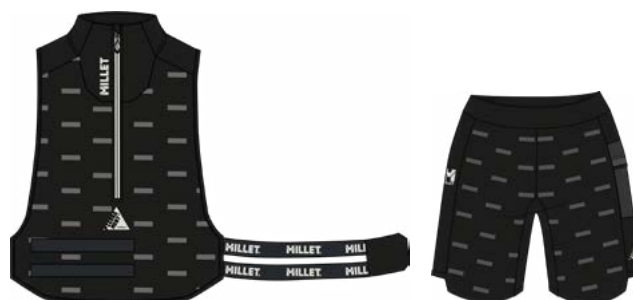

Fabriquée dans nos usines et développée avec Emily Harrop, cette veste très fonctionnelle, fait partie d'une combinaison 2 pièces adaptée aux courses de ski-alpinisme. Les matières total stretch assurent une grande liberté de mouvement ainsi que chaleur, protection coupe-vent et résistance, notamment aux épaules renforcées en Dyneema®.

PIERRA MENT PRO PANT WOMEN

Second-skin pants that attach to their coordinating jacket to create a complete ski mountaineering suit designed for athletes with a need for speed. Made from 4-way stretch, sustainable Italian fabrics, these pants provide both warmth and wind protection. Dyneema® reinforcements are integrated on the lower part of the legs.

Pantalon seconde peau qui se connecte à la veste pour une combinaison intégrale conçue pour les athlètes de ski-alpinisme en recherche de vitesse. Fabriqué avec des matières italiennes durables et total stretch, le pantalon assure chaleur et protection contre le vent. Il possède des renforts en Dyneema® sur les bas de jambes.

PIERRA MENT QUICKOVER VEST & SHORT MIX

This innovative vest is designed for use in a variety of situations. A large front zip makes it easy to pull on. Wear it over other clothing for fast, water-repellent thermal protection. Its Velcro adjustable elastic waist is both effective and practical, adapting to different physiques.

Cette veste chasuble sans manche est innovante et polyvalente. Elle s'enfile facilement grâce à son grand zip frontal et s'adapte à tout type de vêtement pour une protection thermique et déperlante rapide en toute circonstance. Son attache élastiquée ajustable par Velcro est à la fois sûre et efficace et s'adapte à toutes les morphologies.

These PrimaLoft® insulated ski touring shorts provide extra warmth when the temperatures dip. Easy to put on with 2 large side zips, they feature the new SYNTH'X™ technology for the perfect balance of warmth and resistance to wind and moisture. Their hybrid construction combines protection, comfort and breathability for the toughest ski touring outings.

Ce short de ski de randonnée isolé PrimaLoft® offre un apport de chaleur complémentaire en toute circonstance. Facilement enfilaible grâce à ses 2 grands zips latéraux, il bénéficie de la nouvelle technologie SYNTH'X™ optimisant la chaleur et la résistance au vent et à l'humidité. Sa construction hybride allie protection, confort et respirabilité pour la pratique intense du ski de randonnée.

WE ARE ALL SKIERS

SKI TOURING & SKI

[en]

Millet's history with **skiing** was written from the peaks. Skiing was initially a way to explore them.

Our roots, deeply anchored in **mountain culture**, have established our legitimacy as a ski brand in the **broadest sense**: from ski touring to freeride, and alpine skiing.

Our vision of skiing comes to life in our **Ski** and **Ski Touring** collections. The M-White 30 backpack, dedicated to ski touring, was tested, refined, and approved by skier **Julien Colonge** during his expedition on the untouched slopes of Svalbard. As for the **Cosmic** clothing and backpack range, it is aimed at freeriders, offering a wide selection of next-generation GORE-TEX products featuring ePE membranes.

Millet skiers often see their environment through the eyes of an alpinist. Just like the Chamonix local **Pierre Hourticq**, who is both a freerider for the Millet team and a high mountain guide. But the emotions felt in the vast whiteness, the serenity Pierre talks about, aren't reserved solely for steep couloirs and untouched slopes. Anyone can experience it, as long as they have skis on their feet. **WE ARE ALL SKIERS.**

PIERRE HOURTICQ
BREVENT CHAMONIX - © MATT GEORGES

SKI TOURING

JULIEN COLONGE
SPITZBERG ARCHIPELAGO - © UBAC IMAGES

[fr]

L'histoire de Millet avec le **ski** s'est écrite depuis les sommets. Le ski a d'abord été l'un des moyens de les explorer.

Nos racines, profondément ancrées dans la **mountain culture**, ont renforcé notre légitimité en tant que marque de ski, **au sens large** : du ski de randonnée au freeride, en passant par le ski de piste.

Notre vision du ski s'incarne dans nos collections **Ski** et **Ski touring**. Le sac à dos M-White 30, dédié au ski de randonnée, a été testé, amélioré, approuvé par le skieur **Julien Colonge** lors de son expédition sur les pentes vierges du Svalbard. Quant à l'offre de vêtements et sacs **Cosmic**, elle s'adresse aux freeriders avec une large gamme de produits GORE-TEX nouvelle génération avec membrane ePE.

Le skieur Millet lit souvent son environnement avec les yeux d'un alpiniste. A l'image du chamoniard **Pierre Hourticq**, à la fois freerider du team Millet et guide de haute montagne. Mais l'émotion ressentie dans le grand blanc, la «sérénité» dont parle Pierre, ne sont pas réservées aux couloirs raides et aux pentes vierges. Chacun peut en faire l'expérience, pour peu qu'on ait des spatules aux pieds. **WE ARE ALL SKIERS.**

SKI TOURING

M WHITE PRODUCTS

M WHITE HYBRID HOODIE MEN

This hybrid ski touring jacket is designed for warmth and windproof protection. Combining PrimaLoft® insulation zones with new SYNTH'X™ technology and durable stretch zones, it provides the right balance of warmth and breathability, even in wet weather. Used as a mid-layer or outer layer, it offers excellent freedom of movement.

Chaleur et protection coupe-vent sont au rendez-vous avec cette veste de ski de randonnée hybride. La combinaison de zones isolées PrimaLoft® alliées à la nouvelle technologie SYNTH'X™ et de zones stretch résistantes, assure un ratio chaleur/respirabilité optimal même par temps humide. En couche intermédiaire ou externe, elle offre une grande liberté de mouvement.

SKI

COSMIC PRODUCTS

COSMIC GTX 3L JACKET MEN

Designed for skiing, this 3-layer GORE-TEX jacket is fully equipped to protect against the elements during long sessions on the slopes. The new GORE-TEX ePE membrane reduces the impact on the environment while still providing dependable protection.

Conçue pour la pratique du ski, cette veste GORE-TEX 3 couches vous protège des intempéries lors de toutes vos sorties freeride. La nouvelle membrane GORE-TEX ePE génère un impact environnemental moindre tout en assurant une protection fiable et durable.

M WHITE 30

Designed for all-day technical ski touring, this 30-litre backpack has all the essentials, including a separate pouch for safety equipment, side and diagonal ski carry systems and an ultra-light detachable helmet holder. A large side zip gives quick access to the whole pack. Developed with an eco-design approach, this ski backpack is partly made from recycled materials. Available in two back heights, it's easy to find the perfect fit.

Conçu pour le ski de randonnée à la journée, ce sac à dos de 30 litres possède toutes les fonctionnalités utiles : poche sécurité séparée, porte-ski latéral et diagonal, porte-casque amovible ultraléger... Un grand zip latéral permet d'accéder rapidement à l'ensemble du sac. Développé dans une démarche d'éco-conception, il est composé en partie de matériaux recyclés. Ce sac à dos M WHITE 30 est disponible en deux hauteurs de dos.

COSMIC LT 20

Made from 100% recycled materials, this 20-litre backpack is designed for powder enthusiasts looking to bring the bare essentials. Its TPU fabric is extremely durable and water-resistant, and its ergonomic, adjustable design adds stability. With a separate safety gear compartment, this pack is perfect for carrying skis, snowboards or snowshoes, making it ideal for all types of off-piste activities.

Conçu en matières 100% recyclées, ce sac à dos de 20 litres est pensé pour les adeptes de poudreuse à la recherche de l'essentiel. Très résistant et déperlant grâce à sa matière TPU, il assure une grande stabilité avec sa forme ergonomique ajustable. Porte-ski, porte-snowboard ou raquettes, il est adapté à toutes vos pratiques hors-pistes. Un compartiment est dédié au matériel de sécurité.

WITH YOU ALL THE TIME

EVOLE

[en]

External temperature: 0°C; feels like: -10°C. You make your way along a narrow path, under an icy wind. You reach the summit after long efforts. The pressure subsides. You pull your down jacket from the bottom of your bag, your best ally against the cold. You savour the moment, warm, with your companions, taking in this stunning 360-degree view.

There is no need for extreme conditions to appreciate the **comforting warmth** of a down jacket. Worn on its own or as a mid-layer, our down jackets from the **Evole** series are **essential** items in any outdoor wardrobe. **Extremely warm, lightweight, and compressible**, their hybrid construction ensures **warmth** and **breathability** by combining two types of insulation: mainly hydrophobic duck down to provide targeted warmth for the whole body, and recycled synthetic fibres to wick moisture away from the sides. Their **performance** endures over time thanks to a robust and reliable ripstop outer material.

Warm and dry, in the mountains or in the city.

EVOLE: WITH YOU ALL THE TIME.

PRODUCTS

EVOLE LIGHT 700 HOODIE MEN

Hooded down jacket ideal for winter outings. It features dual-zone insulation in natural down and synthetic fibres for maximum breathability. Lightweight and compressible, it can be stashed in the bottom of a pack or worn under a shell jacket. Made from natural and 100% recycled materials, its ripstop construction and water-repellent treatment make it both durable and sustainably sourced.

Doudoune à capuche conçue pour les sorties hivernales. Elle offre une construction hybride alliant le duvet naturel à des zones respirantes, afin d'optimiser la gestion et le transfert d'humidité. Légère et compressible, elle se glisse en fond de sac et s'enfile sous une veste de protection. Sa matière ripstop et déperlante sans PFC combinée à un garnissage naturel assurent une belle durabilité.

EVOLE LIGHT 700 HOODIE WOMEN

Lightweight and compressible, this hooded down jacket is designed for all winter activities. It features a ripstop fabric and water-repellent treatment. The dual-zone construction with 100% recycled synthetic insulation and natural down provides the perfect balance of warmth and breathability, making it easy to wear while on the move or at the summit for added warmth and comfort.

Légère et compressible, cette doudoune à capuche est pensée pour toutes les activités hivernales. Sa construction bi-zone mixant une isolation en duvet naturel et des parties respirantes optimise le rapport chaleur/respirabilité. Avec sa matière ripstop et déperlante sans PFC, elle se porte durant l'effort comme au sommet pour un apport de chaleur complémentaire et durable.

ROADMAP TO 2030

OUR 5 IMPROVEMENT AREAS

In order to meet the greatest challenge in the history of mankind, MILLET is humbly and inquisitively looking for ways to reduce its environmental impact. This project has resulted in the identification of 5 main areas for improvement, which represent milestones on the road to a regenerative company by 2030.

NOS 5 AXES D'AMÉLIORATION

Afin de faire face au plus grand défi de l'histoire de l'humanité, MILLET cherche avec humilité et curiosité comment réduire son impact environnemental. Ce projet se traduit par l'identification de 5 axes principaux d'amélioration qui sont autant de jalons sur le chemin de l'entreprise régénérative jusqu'en 2030.

001
CLIMATE CHANGE

002
CIRCULAR ECONOMY

003
POLLUTION

004
BIODIVERSITY

005
SOCIAL

ROADMAP / NOTRE FEUILLE DE ROUTE

FABRICS	SS24	FW24	SS25	
BIO	62 %	69 %	78 %	2030 - 100 %
RECYCLED	28 %	52 %	59 %	2030 - 100 %
PFC FREE	95 %	91 %	93 %	2025 - 100 %

001 CLIMATE CHANGE

In 2023, the Group's emissions represented 36,437t of CO₂e, equivalent to the annual carbon impact of 3,313 Europeans. 95% of the Carbon Audit is linked to product impact. Our objective is to reduce our carbon emissions by 25% by 2030 compared with 2020.

002 CIRCULAR ECONOMY

Repairs have almost half the impact of new purchases. Thanks to its repair workshops, and in particular the one based at its Annecy headquarters, MILLET can repair a wide range of products: clothing, sleeping bags, and more recently, backpacks and shoe hooks. A rental offer for clothing and equipment also enables the brand to make technical and innovative products accessible, to support you in the field.

003 POLLUTION

As MILLET products are used for outdoor activities, it is our duty to ensure that they do not release polluting chemical substances. In 2024, 91% of water-repellent treatments are PFC Free and 99% of materials used are Bluesign® or OEKO-TEX® certified. MILLET is also committed to the fight against plastic and limiting its consumption of cardboard and paper by reducing the use of polybags and rethinking its product and packaging labels.

004 BIODIVERSITY

Only 30% of the planet's surface is currently protected. That's why MILLET continues to make a concrete and optimistic commitment to the Ice & Life association, working to protect the flora and fauna created by melting glaciers.

005 SOCIAL

By working closely with its partners and employees, MILLET is committed to social responsibility. A policy of social and environmental audits of production partners and daily relations with the company's own factories, based in Hungary and Tunisia, ensure control of the value chain.

MILLET also has a responsibility to continue connecting people to nature. That's why the brand supports the French 82-4000 Solidaires association, which helps people from disadvantaged backgrounds to discover the high mountains.

001 CHANGEMENT CLIMATIQUE

En 2023, les émissions du groupe représentent 36 437t de CO₂e, soit l'équivalent de l'impact carbone annuel de 3313 européens. 95% du Bilan Carbone est lié à l'impact du produit. Notre objectif est de réduire nos émissions carbone de -25% d'ici 2030 par rapport à 2020.

002 ECONOMIE CIRCULAIRE

La réparation est presque moitié moins impactante qu'un achat neuf. Grâce à ses ateliers de réparations, et notamment celui basé dans son siège social à Annecy, MILLET propose la réparation de multiples produits : vêtements, sacs de couchages, et plus récemment, sacs à dos et crochets de chaussures.

Une offre de location de vêtements et équipements permet également à la marque de rendre accessibles des produits techniques et innovants, pour vous accompagner sur le terrain.

003 POLLUTION

Les produits MILLET sont utilisés pour des activités extérieures. Il est de notre devoir de s'assurer qu'ils ne contiennent pas de substances chimiques polluantes. En 2024, 91% des traitements déperlants sont PFC et 99% des matières utilisées sont certifiées Bluesign® ou OEKO-TEX®. MILLET limite également sa consommation de plastique et carton en réduisant l'utilisation de polybag et repensant ses étiquettes produits et packaging.

004 BIODIVERSITÉ

Seules 30% des surfaces de la planète sont protégées actuellement. C'est pourquoi MILLET continue de s'engager concrètement, et avec beaucoup d'optimisme, auprès de l'association Ice & Life, œuvrant pour la protection de la faune et la flore issues de la fonte des glaciers.

005 SOCIAL

En travaillant en étroite collaboration avec ses partenaires et ses employés, MILLET s'engage dans une démarche de responsabilité sociale. Une politique d'audits sociaux et environnementaux des partenaires de production et des relations quotidiennes avec les usines en propre, basées en Hongrie et en Tunisie, assurent la maîtrise de la chaîne de valeur. MILLET se doit également de continuer à relier les Hommes à la nature. C'est pourquoi la marque soutient l'association française 82-4000 Solidaires, qui permet à des personnes issues de milieux défavorisés de découvrir la haute montagne.

LOCAL SERVICES

MEDIA CENTER

MILLET CONTENT AT YOUR DISPOSAL

- Product pictures: packshot and ambience
- Source-file videos and YouTube links
- Marketing tools (logos, banners, size grids, etc.)

MILLET MOUNTAIN GROUP B2B
